*Wood...the product that  
has proven itself  
for centuries.*

# Wood United Group

---

## **Introduction**

Wood United is a Singapore based company with production facilities in Indonesia and Malaysia. The company also has an office in Surabaya, Indonesia. From here we supply timber products all over the world.

## **From production engineering to customer satisfaction**

Through our own production facilities and in cooperation with our partners, we are able to produce and supply a wide variety of products, ranging from sawn timber to fully finished consumer goods. Our team of product specialists constantly develop and engineer new products to suit customer requirements.

Wood United supplies substantial volume to the leading distributors in the European and UK timber business. This makes us one of the largest timber sourcing and manufacturing companies in Asia. Besides sourcing raw material, Wood United is a strong believer in adding value focusing on semi-finished and fully-finished products. Wood United's quality assurance team assists local companies to achieve European standards to ensure premium products. By doing so we guarantee that the shipped and delivered products fully satisfy our customers. Our portfolio consists of branded as well as private label products.

*Work with the best...  
We do the rest.*

*Enjoy the beauty of  
the world we live in...*

## Timber business

Wood United's core business consists of sawmilling, processing, trading and marketing of timber related products; from raw materials to finished goods. Our shareholders have worked in the timber and construction industry for decades. Their experience in all facets of the industry adds unique value for our partners, both customers and suppliers. With our production experience and knowledge we can fulfill our clients wishes with a wide variety of timber species and products that we trade globally on a daily basis.

## Environment

Wood United is committed to protect current and future generations. For this reason we maximize the use of sustainable certified timber such as PEFC 100% and FSC 100%. As timber is a vital renewable resource, it is critical for us to play a key role in its preservation.

## Main certifications are:

- \* FSC 100%
- \* VLO
- \* CertiSource Verified Legal
- \* PEFC 100%
- \* V-Legal FlegtT
- \* Nature's barcode

# Certificates

The majority of our products have the FSC label to ensure that the forest products used are from responsibly harvested and verified sources. We are able to supply volume in different species with Nature's barcode, CertiSource verified legal, PEFC, MyTlas, FlegT and VLO (Verification of Legal Origin).

Other certificates are KOMO by SKH which is a Dutch quality certificate like ISO for the professional building industry. Within it the complete production process is monitored and tested.

The mark of  
responsible forest  
management

Nature's  
Barcode™

Solid finger jointed (KOMO #33222)  
Finger joint laminated (KOMO #33234)

## Sustainable Forest Management

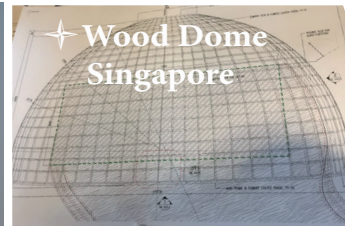

- 1) Country map
- 2) Concessions are split in 30 sections for a 30-year rotation cycle. Sections are sampled to estimated trees and wildlife.
- 3) 2 years before the actual harvesting, the sections are split in parts. Roads are set to limit harmful effects.
- 4) All trees including vegetation, wildlife and sacred places are GPS plotted per item. This results in a forest plan to ensure regeneration and natural beauty. Only trees with a certain minimum diameter (about 60cm+) are harvested. The company will map, enter, harvest, restore and then close the section for 30 years. In 30 years the smaller trees can mature for future harvesting.

**An endless cycle to preserve and value our rainforest.**

# Projects

---

Wood United obtained a lot of expertise in projects. With our partners amazing things have been realized all over the world. Some examples are:

# Marina Bay Sands rooftop

# Rough Sawn Lumber

---

Specie:	Red Meranti Merbau Seraya	White Seraya DUC (Tembaga) Keruing (Apitong)
Construction:	Rough sawn Kiln Dried	
Grade:	DUC (Dark Uniform Color) GMS MGR PHND / NON-PHND Scantling grade Select and better Standard and better	
Size:	General market sizes (GMS) in random width and length  1" x 6" wider x 8'up      1¼ x 6" wider x 8'up 1½ x 6" wider x 8'up      2" x 6" wider x 8'up 2½ x 6" wider x 8'up      3" x 6" wider x 8'up 3½ x 6" wider x 8'up      4" x 6" wider x 8'up  Fixed width scantling sizes such as 3x5 & 4x5	
Certification:	FSC 100% SCS-COC-003441 SCS-COC/PEFC-003441 VLO	
Options:	9" wider also available	

# Laminated Scantlings

---

Specie:	Red Meranti Durian Plantation Mahogany	Gerutu Bintangor
Construction:	Finger joint laminated or solid faces 3 ply laminate or muliti layer Inner layer finger joint or edge glue Horizontal and/or Vertical buildup	
Size:	72 x 120mm, 95 x 120mm 72 x 86/95/105/115/125/145mm 84/96 x 105/115/120/125/125mm  Also available in 63mm	
Length:	Between 800mm and 3000mm fair spread Finger joint laminated 5900mm	
Certification:	FSC 100% SCS-COC-003441 SCS-COC/PEFC-003441 VLO / SVLK KOMO	
Options:	All sizes and build-ups Finished component Mouldings and profiling	

*Speed, quality and reliability  
are the keys to success...*

*We supply fuel to  
the building industry*

# Laminated Panels / Tabletops

---

Specie:	Rubberwood Meranti Balsa Monkeypod/Suar Slabs	Merbau Kempas Beech
Construction:	Finger joint laminated and or butt joint Solid laminated Sanded 180 grit	
Grade:	AA premium / AB / BC	
Size:	18mm, 26mm, 40mm Additional thickness: 20/35/45/50/55mm	
Length:	1000, 2000, 3000, 4000, 4500, 5900mm	
Options:	All buildups possible Packed per panel if requested Mouldings and profiling	

# Doorlippings

---

Specie:	Red Species Meranti Merbau	Palapi Plantation Mahogany Rubberwood
Construction:	Solid Finger jointed Laminated In case of A side, lipping marked	
Grade:	Full A lipping or full B lipping A lipping/outside B lipping inside	
Size:	At customers request	
Options:	Different certifications	
Main Usage:	Interior and exterior doors	

*Efficiency helps the entire  
chain of supply*

*Beauty is all around us...*

# Fencing and Garden Furniture Products

---

Specie: Bankirai/Yellow Balau Kapur  
Kempass Meranti  
Red Balau

Construction: Stainless steel screws

Size Fencing: 1800 x 1800mm (15 slats)  
12 x 140mm  
16 x 140mm

Options: KD possible  
Pre-stained

Size: At customers request

Options: Different certifications

# Moulding & Primed Products

---

Specie:	Mixed hardwood Plantation Mahogany	Meranti
Construction:	Solid Solid fingerjoint Laminated products	
Size:	11 x 68mm Door casing or skirtings 20 x 220mm Storm panels/planks 56 x 90/115mm Door jambs (sets) ABC profile	
Options:	Primer, finished coating, Jesso  At customers request	

*Clean water is not a given...  
FSC assists to get more*

*Value the forest  
equals  
preserving it...*

# Plywood

---

Specie: Red Hardwood Falcata  
Red Meranti Combi

Construction: To customers request

Size: 2,5 mm 5mm 15mm  
3 mm 6mm 18mm  
3,6 mm 8mm 25mm  
4 mm 12mm 40mm

1220 x 2440mm  
Jumbo size possible

Options: Different certifications  
Glue type at customers request  
Carb certification  
Marine plywood  
Film face plywood

*Do what you love...  
and love what you do...*

*We can make you move  
the big things in life...*

# Truck Flooring

---

Specie:	Mixed hardwood Keruing (Apitong) Angelim Pedra Kapur
Model:	Different shiplap profiles
Size:	28,58 x 136,43mm    1-1/8" x 5-3/8" 28,58 x 187,325mm    1-1/8" x 7-3/4" 33,338 x 136,43mm    1-5/16" x 5-3/8" 33,337 x 187,325mm    1-5/16" x 7-3/4"
Options:	Different certifications S4S sizes available  Ready made kits (set per trailer)

*Work... to make your  
dreams come through...*

# Doors and Windows

---

Specie:	Meranti Mixed hardwood Merbau	Gerutu Rubberwood
Model:	Solid doors, panel doors, engineered doors, solid windows	
Size:	40 mm Doors 930 x 2115 930 x 2315 880 x 2115 830 x 2115 Or to order	40 mm Windows 670 x 850 Or to order
Options:	Prime coating
